CARMELCREST

Carmelcrest were selected as main Contractor under competitive tender to create an “On day admissions unit”, at Basildon Hospital.

This successful project involved the conversion of the existing Dormitory rooms into two, on the day admissions units. Consisting of separate male and female waiting areas, WC's, changing areas, consulting rooms, reception area and high quality bespoke joinery. Along with a connecting link to the main hospital.

Carmelcrest completed on time and on budget and achieved a beautiful finish. The client was very happy and has given his approval to be contacted for a reference. As a result Carmelcrest were being invited to tender for other schemes at the hospital.

Carmelcrest have been working with hospitals for over 34 years. We have an in-depth understanding of Healthcare environments, in-
