CARMELCREST

Following a successful tendering process, Carmelcrest were selected as the Principle Contractor to carry out the refurbishment of the High Security Ward at Chase Farm Mental Health Hospital.

The project was carried out within a secure mental health unit and required a well organised and sensitive approach to ensure minimal disruption and safety. Anti-ligature/vandal resistant was used throughout, with special anti-barricade hinges and handles.

Our experience working in live mental health units is vast and extensive, 34 years in the making.
