CARMELCREST

Sector: Education
Client: Maryland Primary School, Newham
Value: £63,000
Duration: 3 weeks

Maryland wanted an up-market look to their staff toilets, something they felt reflected the high teaching standard set in the school.

Laminated MDF panels gave an inexpensive but durable finish to wall panels and toilet cubicles. Modern basins and mirrors completed the modern look. The work took three weeks to complete. All on time and within the schools budget.

The new facilities were certainly something for others to be envious about.
