CARMELCREST

Sector: Healthcare

Client: Spire Healthcare, Cambridge Lea Hospital

Value: £26,000

Duration: 3 weeks

The objective was to modify the existing consultants area, adding a new exam and changing room, toilet and new finishes throughout at the Cambridge Lea Hospital.

Working on key areas of the hospital, it was vital that the project was completed quickly and efficiently. The construction phase spanned 3 weeks.

We feel that the key to the projects success, was having an experienced and considerate team on site, working in co-ordination with hospital staff. All DBS clear and customer service trained. Our in-house team are trained and experienced, especially when it comes to working within live hospital environments.
